SAVE TIME AND MONEY!

- **PRE-CUT SHIMS** eliminate material waste, time consuming hand-cutting, de-burring and for heavy gauge shims the need for torch cutting and machining.
- The stainless steel 304 full hard material protects against rust and deformation.
- All shims are marked with their thickness to facilitate identification and re-use.
- Bur-free shims contribute toward higher accuracy in machinery alignment.
- Properly sized shims provide full support for the machinery feet.
- Four different shim sizes fit motors and generators up to 1,000 HP.
- Safety tab prevents accidents and speeds installation and removal.
- Rounded corners and edges contribute to safety.
- The convenient sturdy storage and carrying case with size dividers contains 25 pieces each of all 13 available shim thicknesses allowing all possible shim change combinations with a maximum of 3 shims.
- With the full assortment of PRE-CUT SHIMS at your work site, time- wasting trips to and from the storeroom are no longer necessary.
